BARRON'S RANKING

The Barron's ranking is for Churchill Management Group ("CMG"). The rating may not be representative of any one client's experience because the rating reflects a quantitative and qualitative analysis of factors that may include only a sample of the experience of CMG's clients. The rating is not indicative of future performance. CMG did not pay a fee to participate in the Rankings, but did purchase reprints of the Barron's article.

According to Barron's: The formula Barron's uses to rank advisors is proprietary. The rankings are based on data provided by individual advisors and their firms. Advisor data is confirmed via regulatory databases, cross-checks with securities firms and conversations with individual advisors. The formula Barron's uses to rank advisors is proprietary. It has three major components: assets managed, revenue produced and quality of practice. Investment returns are not a component of the rankings because an advisor's returns are dictated largely by the risk tolerance of clients. The quality-of-practice component includes an evaluation of each advisor's regulatory record.

FINANCIAL TIMES 300 TOP REGISTERED INVESTMENT ADVISERS

The Financial Times 300 Top Registered Investment Advisers is an independent listing produced annually by the *Financial Times* (June 2018). The FT 300 is based on data gathered from RIA firms, regulatory disclosures, and the FT's research. The listing reflected each practice's performance in six primary areas: assets under management, asset growth, compliance record, years in existence, credentials and online accessibility. This award does not evaluate the quality of services provided to clients and is not indicative of the practice's future performance. Neither the RIA firms nor their employees pay a fee to The *Financial Times* in exchange for inclusion in the FT 300.

FORBES TOP 250 WEALTH ADVISORS FOR 2018

The Forbes ranking is for Randy Connor of Churchill Management Group ("CMG"). The rating may not be representative of any one client's experience because the rating reflects a quantitative and qualitative analysis of factors that may include only a sample of the experience of CMG's Clients. The ranking is not indicative of future performance. CMG did not pay a fee to participate in the Rankings but did purchase reprints of the Forbes listing. The ranking, which was developed by Forbes' partner Shook Research, is based on in-person and telephone due-diligence meetings and a ranking algorithm for advisors who have a minimum of seven years of experience. The ranking algorithm is based on quality of practice learned through telephone and in-person interviews, client retention, industry experience, review of compliance records, firm nominations, and quantitative criteria, including: assets under management and revenue generated for their firms. Investment performance is not a criterion because client objectives and risk tolerances vary, and advisors rarely have audited performance reports. Rankings are based on the opinions of SHOOK Research, LLC which does not receive compensation from the advisors or their firms in exchange for placement on a ranking.
